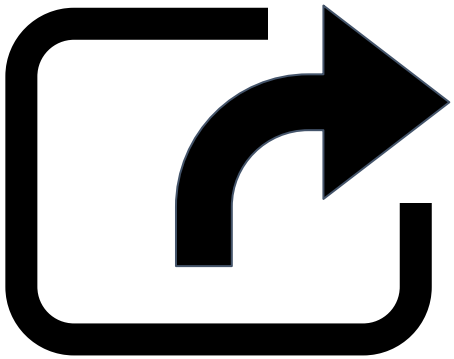
Export Designs

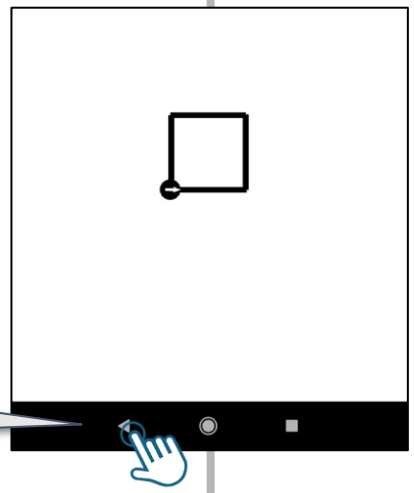


BASIC

1. Start your project and wait until it is **fully** unfolded.

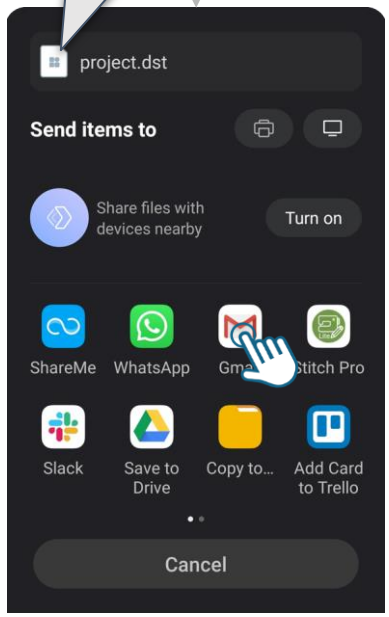
   Otherwise the pattern will be incomplete.

2. Tap back.



3. 
4. Share your embroidery-file via e-mail or save it to your phone.

   The share-function may look slightly different on every phone.



Your embroidery-design will be saved as DST-file.
The embroidery machine knows this file format and completes your design on your fabric.
